

Safe Kids Savannah Child Safety Seat Inspection Station – Directions

Thank you for scheduling an appointment to have your child safety seat inspected for proper installation. When you come for your appointment please make sure to have the following things with you:

- The car seat(s) that you wish to have inspected.
- All of the parts/pieces that go to your car seat(s) – including the instruction manual, if you have it.
- Your vehicle owner's manual, if you have one.
- If your children have been born they do not need to be present, however, we do need to know their birth dates, their heights and their weights.

When you come for your appointment you will be coming to Memorial University Medical Center. The address is 4700 Waters Ave. Savannah, GA 31404. However, if you put this in your GPS it will not bring you to the exact location at the hospital where you need to be, it will just bring you to the hospital in general. You will be coming to the Children's Hospital Outpatient Center (Bldg. #20 on the attached map). When you are driving on Waters Ave. there is a traffic signal at 63rd Street (Main entrance into the hospital campus, across from CVS and Calvary Baptist Church) and one at 65th Street (where Stillwell towers is, 20+ story apartment building), you will want to turn on to the hospital campus in between these 2 traffic lights. If you are coming from DeRenne Ave. you will see this sign for the Emergency Department and you will want to turn right, just before the sign, onto Metts Dr..

This is directly across from the middle of the Medical Arts Shopping Center where you will see this sign:

After you turn on to Metts Dr. you will turn right at the first opening on your right. You will see this sign:

This is the Children's Hospital Outpatient Center. The name is not on the building itself, just this sign which is out in front of the building. This building is directly across from Parking Deck B. After you turn right at the above sign you will go straight ahead and turn to the left to drive under the big green awning. Pull forward and park alongside the curb/patch of grass that is across from the handicap parking spaces.

Please park alongside this curb/patch of grass here.

Call the Safe Kids Savannah office at 912.350.1118 when you arrive and someone will come out and meet you at your vehicle.
